**Subject:** MHS sampling next week

Mark –

I will be representing EPA at the sampling event next week. Sandra indicated that you will conduct the sampling from Jan. 2-3. Presumably, that means you will set up the (24 hour) air samplers on Jan 2<sup>nd</sup>, and then take down the air samples on Jan 3<sup>rd</sup> and collect the wipe samples then. If that schedule is not accurate, please let me know. I plan to be down there on Jan 3<sup>rd</sup> – there's no need for me to be there for the air sample set-up on Jan 2<sup>nd</sup>. If feasible with your schedule, doing the air pick-up and wipe sampling on Friday morning would be better than the afternoon.

I plan to take co-located wipe samples. The EPA samples are not truly split samples since we will be analyzing Aroclors rather than congeners, but are intended to generally confirm the clean-up.

Thank you for your help with this effort –  
Kathy Baylor

**Subject:** 72 hour notice

Hello all:

Thanks for all your assistance this week so that we are able to move forward with cleaning and testing.

My understanding is, based on information that you sent to us, you need 72-hour notice for the verification testing that is to be done post-cleaning so that the EPA can send a representative from Region IX, San Francisco to be on-site.

That testing will be scheduled for January 2<sup>nd</sup> and 3<sup>rd</sup> 2014. We wanted to give you ample time to arrange for your representative to be there.

Please let me know if you need anything else.

Happy Holidays!  
Sandy
